Prophetic Spirituality

From our Vicar

There are several kinds of spirituality around us such as traditional spirituality, charismatic spirituality, pentecostal spirituality, doctrinal spirituality, dogmatic spirituality, sacramental spirituality, ritualistic spirituality, worshipping spirituality or spirituality of meditation, practical spirituality, social spirituality, preaching spirituality, healing spirituality, miraculous spirituality, contextual spirituality, religious spirituality, denominational spirituality and so on. Sometimes you may have big confusion on what kind of spirituality is better and which kind of spirituality you should follow and which kind of spirituality gives you salvation and what kind of spirituality the Bible insists or what kind of spirituality Jesus prefers and teaches.

Our faith works through spirituality. Therefore we should be careful about the existing spirituality within us. Otherwise, our spirituality may not have sufficient room for giving us salvation of Christ. We should analyze our present spirituality with the Bible and the ministry of Jesus Christ to find out whether it is right or wrong. Even though the topic spirituality is a

controversial theme with a lot of insights and confusions, it is our urgent need to construct an apt spirituality on the basis of the work and life of Jesus Christ.

Here is the task to introduce a relevant spirituality, i.e., Prophetic Spirituality. Prophetic spirituality is the spirituality, which had been constructed by the Prophets with the special insights, visions and instructions from God. Prophetic spirituality is beyond all religions traditions, rituals, and customs. This spirituality is an inclusive spirituality which consists of all humankind as well as whole God's creation. It is not strictly for any religion, culture or any particular society. Prophetic Spirituality stands for the holistic social transformation. This is fully based on the justice, righteousness, peace and love of God. Therefore, it cannot tolerate any kind of evil structures. It does not have any kind of priestly tradition. The person who is having this spirituality will be an anointed one by the spirit of God. This spirituality can never live only in the inside of the church by meditating or worshipping or preaching on God

because prophetic spirituality is a “praxis-oriented spirituality” in which the mission is to establish love, peace and righteousness of God in the society or among the people irrespective of caste, class, creed, religion, sex and culture.

Prophetic spirituality works to eradicate all kinds of injustices and discriminations from the society. It tries to establish equality among human beings. It opposes the exploitation towards the fellow human beings, co-creatures and the nature. Prophetic spirituality is very courageous to point out the wrong and evil things even to the king as well as to the slave. Prophetic spirituality has no room to be afraid about the consequences. It is not at all a church or liturgy or tradition oriented spirituality. The remarkable thing to be noted in the prophetic spirituality is that it has no institutionalized or established structure to give salary or any kind of reward to anybody. It does not have any space to please others. This spirituality doesn't have any kind of vested interest or selfish motive because it is fully based on the insights and values of the Kingdom of God. This spirituality we can see in Jesus Christ and all the prophets.

Prophetic spirituality can never communicate a God of any special religion but a God of the society who struggles to eradicate all kinds

of unrighteousness, inequality, exploitations, and oppressions by establishing the righteousness of God. Prophetic spirituality stands for an egalitarian society. It stands to save others. Prophetic spirituality interferes and interacts with all spheres of the society such as politics, economy, culture, tradition, administration and so on of the society.

Let us examine our existing spirituality. Our spirituality is church oriented, ritual oriented, and tradition oriented. It excludes all other religions and the people of other faiths. Our present spirituality struggles to save ourselves not others. It never interacts with the society or never interferes with the social issues or the structures of the society. It never struggles to wipe out the injustice, inequality, discriminations and exploiting structures of the society. It never fights to establish the righteousness of God in the society. Our spirituality is liturgy oriented one. Therefore, it cannot advocate the values and virtues of the Kingdom of God. Can we say our spirituality is correct and stands with the spirituality of Jesus Christ and all the prophets? If not, we should construct a prophetic spirituality to redeem ourselves as well as the society in Christ.

In Christ,

Boas Achen

House Dedication

As a part of flood relief programme, our church has built and dedicated two houses for the flood affected families in our diocese. We sponsored a house for a member of Aluva, Holy Trinity CSI Church and another house for the family of Danny Kundukad. It was dedicated and solemnized by Rev. Shinoj Boas Achen alongwith other presbyters. It was a blessed moment for these two families.
